Technical Skills

- React, Node.js, Express, PHP, Laravel, C#, .NET, SQL, API, Git, Agile, Jira, Jasmine
- VS Code, CLI, Postman, MAMP, MongoDB, phpMyAdmin, Figma, MEAN, LAMP

Projects [\(↗\) Project Portal](#)

Cultural-Hub App (team project) | *React, Node.JS, Figma, Git, Agile* [\(↗\) Live](#) [🐱 Code](#)

- Collaborated with Graphic Designers and Content Strategists to develop a Newcomers Event App comprising three screens, with agile management.
- Independently developed the second screen page using React and Node.js, aligning it with the envisioned design and functionality of the Designers and Content Strategist.
- Maintained design principles encompassing mobile compatibility, user-friendliness, and adherence to accessibility standards.

Timesheet Automation App (team project) | *NPM, CLI, API, Git, Agile* [\(↗\) Live](#) [🐱 Code](#)

- Developed a Command-Line-Interface application using Node.js and Clockify's API that allows users to efficiently manage their projects and tasks in code editor.
- Contributed to the CLI features, such as global functions, console log styling and API calls debugging, in addition to the code review and testing.
- Published the package on NPM, resulting in over 500 downloads and enabling users to streamline their time-tracking process and export records to Excel files.

Portfolio | *React, Node.JS, HTML, CSS, JavaScript, Figma, Vite* [\(↗\) Live](#) [🐱 Code](#)

- Developed a comprehensive platform for my completed and ongoing projects, featuring modern aesthetics and an interactive animated background.
- Ensured seamless and responsive performance on mobile phones, guaranteeing a consistent and enjoyable user experience.
- Implemented dynamic content driven by real-time data retrieved from an online server.

Work

Unisync Group Limited Electronic Store Front Assistant (Intern) July-August 2023

- Gained two months of valuable work experience at a leading industry corporation.
- Designed and developed the company's website on WordPress, leveraging PHP, jQuery and Figma to create a customized visually appealing user interface. [\(↗\) Live](#)
